

October 19, 2017

Congratulations, you have been selected to receive a 2017-2018 Mini-Grant. The committee reviewed several wonderful submissions and although we were not able to award a mini-grant to everyone that submitted a request we are excited to see how the \$10,000 budget will be used for so many great classroom enhancements supporting 29 staff members directly and countless students.

Below is how the grant process will take place:

- Carrie Clark will confirm the item description within your request and process orders of the requested items.
- Items will be delivered to the district office.
- When possible a representative of the Gilbert Education Foundation will present the item to you in your classroom. During this time we would like to get a few photos and/or possibly a video.
- All grant recipients must submit a brief summary (a few sentences) describing the following by **January 15, 2018**:

\*How has the item you received through the mini-grant process effected your learning environment?

\*Based on your experiences would you recommend or not recommend this item for similar classes?

Thank you for your dedication and commitment to ***Every Student, Every Day!***

Congratulations!

From the Gilbert Education Foundation

Staff Member	Building	Requested Item	Revised amount
Julie Toscano and Teri Imerma	District	ELL Books	\$ 500.00
